ABOUT ME

I am a Full Stack developer specialized in .NET and React.js, with solid knowledge in design patterns and microservices. Passionate about creating robust and scalable solutions, I have experience leading development teams and delivering complete projects, from design to final implementation. I have strong expertise in C#, ASP.NET, and React.js, focusing on efficient software architecture and modern technologies.

EXPERIENCE

FullStack Developer - Full Time - Bitzen Tecnologia　　　　November 2023 – November 2024
Maringá, Paraná, Remote
- ✓ Responsible for creating and maintaining applications, websites, desktop services, and managing a small team from start to finish. Applying knowledge of design patterns and microservices to architect the project, with extensive use of Azure tools.
- ✓ Key technologies used: .NET, ASP.NET, React JS, Laravel, Flutterflow, Firebase, Azure, SQL, Docker, and NGINX.
- ✓ Development methodologies used: Kanban, SCRUM, and waterfall.
- ✓ Key Soft Skills: Adaptation to sudden project changes, high communication with clients and the team, task delegation, and reliability.

FullStack Developer - Part Time - ClicNET　　　　January 2023 – November 2023
Bandeirantes, Paraná, Remote
- ✓ Responsible for creating a media consumption app with feature componentization using React Native and Firebase resources. The API was developed in .NET using a clean service architecture.
- ✓ Key technologies used: React Native, Firebase, and .NET.
- ✓ Development methodologies used: Kanban, SCRUM.
- ✓ Key Soft Skills: Communication and self-management.

FullStack Developer - Part Time - Fundação Araucária　　　　September 2021 – October 2023
- ✓ Responsible for creating MVC applications using Laravel, React JS, and PostgreSQL to meet the demands of northern Paraná state universities. I developed applications using a monolithic and service architecture, organizing tasks with the Kanban model.
- ✓ Key technologies used: React JS, Laravel, and PostgreSQL.
- ✓ Development methodologies used: Kanban.
- ✓ Key Soft Skills: Communication, self-management, and negotiation.

EDUCATION

Bachelor's Degree in Computer Science　　　　2024
State University of Northern Paraná, Bandeirantes, Paraná
- ✓ *Related work*: PIBIT scholarship in technological development and software innovation for universities.

PROJECTS

Hackathons
- ✓ First place - Genius.Con Hackathon (2022) - SEBRAE
- ✓ First place - Front-end Hackathon (2022) - UENP
- ✓ Third place - Genius.Con Hackathon (2023) - SEBRAE
